TAPping Mature Worker Strengths*

Seasoned interns are available at no cost to you

Interns are screened to specifically match your needs

Workers 55 years and over often bring years of experience to the job and a work ethic that can be hard to find.

"A mature workforce is an asset for any community. Not only do they have a strong work ethic that was developed through years of experience, they are willing to share that experience with a newer workforce so that they can develop into a community asset as well."

Jim Walker
Mayor, City of Peru, IN
